Probably the most noted event in his career was his single bended fight with Jacob McCandies and his gang of nine men at Rock Creek, western Kansas, while reliuling pony express in 1891. This was his first great fight while covering his route, armed only with two Colt revolvers. He halted at Rock Creek Station to find the stock tender dead and his wife excited by his presence. As he approached "My heavens, Bill, McCandies and his gang are in the neighborhood, or were this morning?" This gang of hendits had been lay-

VALUE OF MODEL HIGHWAYS

More Than a Billion and a Half In Gain Would Be Saved—Value of Road Built Near Greenville, Miss., at Low Rate.

When the annual appropriation bill of the department of agriculture was under \_discussion last April Representative Benjamin Humphreys of Greenville, Miss, made the epigramatic statement that "no road can cost the farmers as much as a poor one." That touched the very kernel of road economies, for careful research and exhaustive study have proved, says the New York American, that the poor roads of the nation place a nud and it hill climbing tax of not less than it and the provided of the cost of the same and the provided provided that the provided provided the provided provided that the provided prov

macadam roads of the north and east.

"It depends entirely upon the character of the country through which the road passes," and Mr. Humphreys when asked what it all cost. "If it be wooded so that fuel can be bought for, say, \$1.25 a cord, the road can be made for \$1.000 a mile. I may say that it costs from one-half to one costs, and it is as easily and as cheaply maintained.

"In a country where the people have never gone into the building of good roads the thought of paying \$2.000 a mile seems prohibitive. Where the experiment is once made, however, we all know that the people have never gone into the building of good roads the thought of paying \$2.000 a mile seems prohibitive. Where the experiment is once made, however, we all know that the people and especially the farmers, who usunjutation and especially the farmers, who usunjutation to the undertaking, demand that the roads be constructed and are most willing to bear the tax."

In explaining how easily the burden of taxation would be borne, even if the authorities of his county decided to expend a laif million in the construction of a perfect system of high class roads. #### WEDNESDAY, JANUARY 13, 1909.

We received with pleasure, Monday, The Maryville Enterprise, containing an address delivered by Wilbur A. Hamman. It was delivered at the annual mid-winter meeting of the Athenian Literary ciety, of Maryville college in Tennessee. His subject was Sam Houston. The oration shows marked literary talent and we read it with pride for the orator is one of our most progressive and ambitious home boys. We are truly glad to recognize the honor that has been given Wilbur Hamman in this great college and wish for him success as brilliant as his prospects.

Marked copies of The Breckinridge Democrat, The Woodford Sun, The Harrodsburg Democrat, The Blue-Grass Clipper, The Twice-a-Week Ledger and The Park City Daily News were received too late to be added to the list of newspapers that were extended thanks by the assistant editor of the News in last week's issue. However, the notices in the above named publications were most pleasing, and like the others, unexpected. They were greatly appreciated, and so was editor Walton's second editorial in the Kentucky State Jour-Had it appeared a day later, one might have thought it was prompted by editor Sommers' paragraph to Mr. Walton. The poetry in "The Commonwealth," of the Louisville Times was beyond comprehension- surely the poet was thinking of the other girl!

#### THE NEW LEAF.

Sunday morning at the Baptist church the Rev. James Lewis delivered a beautiful sermon, a most inspiring one; his theme being the passing of 1908 and the coming of 1909. Rev. Lewis said that the New Leaf was turned for man by the divine hand and the acceptance of its appointments was left solely to the mind and desire of the individ-While the bells were ringing out the old year and ringing in the new-God's call could be heard directing men in all the walks of life, and he added that those who, at this serious period of time, had not heard the still, soft voice were to be pitied. He further stated that in many cases, man's worst fault in 1908 was he kept his spiritual light turned so low that it failed to shine in his social and business He emphasized the thought that the most important work for all in 1909 was to be fishers of men. His tribute to the me the late Dr. Francis M. Smith was loving and thoughtful.

Taking Rev. Lewis' discourse all in all, it was refreshing indeed and made one feel the New Leaf a great and glorious blessing

#### WORK--THE EDUCATIONAL REMEDY.

Beneficial and interesting to the readers of the News, especially the teachers and pupils, is the "Educational Column" we have just opened. Supt. Joel H. Pile, who answers every beck and call of the county's schools, swill gather the material and we hope its publication will tend to start a strong and steady work for perfect schools in Breckinridge. It is deplorable to hear of a child's school attendance In one term limited to three days! This fact was in Supt. Pile's note: It is distressing to see the number of boys and girls be tween the ages of fourteen and twenty years absent from school in Cloverport. Who are responsible for this neglect of opportunities? Not the teachers, we dare say. but the parents and the pupils.

Work is the only remedy and every parent knows it must begin at home. It is hard for a child to leave the bright, warm fire and go out on the cold, bleak roads to the school house, when he cannot see the advantage that awaits him in an education. with his toes in the ashes and then when the fire has gone out and the powers of youth have slipped away, listen to his reproach, "Why didn't you make me study, I was too young to understand the use of know ledge?" There are many parents who have heard the reproof and others who will hear it, unless they put a foot foremost to keep their children in school. To our minds there will be no decided enlightment unless more school work takes place in the homes. To keep a child's attention on his studies means constant efforts on the part of the mother and father, and not until they make every advancement for the children will this young generation be trained properly. True, many parents are ignorant themselves and know not the value of in formation, but those realizing it should work without ceasing to see what good they can do for those who dwell in such pitiful darkness. We urge the teachers and parents to give Supt. Pile their co-operation in everyway; if they do, Breckinridge will progress with the rest of Kentucky in educational development.

When shown positive and reliable proof that a certain remedy had cured numerous cases of female ills, wouldn't any sensible woman conclude that the same remedy would also benefit her if suffering with the same trouble?

Here are two letters which prove the efficiency of Lydia E. Pinkham's Vegetable Compound.

Red Banks, Miss. — "Words are inadequate to express what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered from a female disease and weakness which the doctors said was caused by a fibroid tumor, and I commenced to think there was no help for me. Lydia E. Pinkham's Vegetable Compound made me a well woman after all other means had failed. My friends are all asking what has helped me. My man and I gladly recommend Lydia E. Pinkham's Vegetable Compound. — Mrs. Willie Edwards.

Hampstead, Maryland,—" Before taking Lydia E. Pinkh-egetable Compound I was weak and nervous, and could e on my feet half a day without suffering. The doctors in I never would be well without an operation, but Lydi inkham's Vegetable Compound has done more for me tha de doctors, and I hope this valuable medicine may come he hands of many more suffering women."— Mrs. Josephandy.

We will pay a handsome reward to any person who will prove to us that these letters are not genuine and truthful—or that either of these women were paid in any way for their testimonials, or that the letters are published without their permission, or that the original letter from each did not come to us entirely unsolicited.

What more proof can any one ask?

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does medicine. Note that the control of the c

ple Ask?.

When well-known residents and highly respected people of Cloverport make such statements as the following, it must carry conviction to every reader; J. C. Weatherholt, living on High St., Cloverport, Ky., says: "Two years ago I did not think it possible that I would ever be a well man and in fact I have settled up my affairs, believing it would not be possible for me to last much longer. I cannot describe the misery I endured from pains through my back and whenevel I stooped, they would become so sharp that it really felt as it some one were thrusting a knife into my kidneys. I often became diazy, dark-spots would float before my eyes, and I would have to grasp something to keep from falling. My joints became swollen to twice their natural size and I lost weight rapidly until was a skeleton. My kidney secretions contained a sediment and doctor's medicines did not help me nor did the many quaranteed-cures that I tool. It was a significant of the contents of provement in my condition. Thus encouraged, I continued using them until completely cured, and I am now as well as any man in this county. I give comment them at every opportunity." For sale by all dealers. Price 50 cents. # A \$4000 Contest-Shorthand Free.

and unartier students finishing 172 words ahead of all other contestants in the \$4000 Shorthand Contest has a-wakened a great interest. Our graduates in this system now hold excellent positions in the 4th Ave. and Main St. houses, where high-class work is demanded, and none of these graduates were in Shorthand more than 12 weeks, some were in only 10 weeks, some 8.

This is a sample of the systems we teach and WHY we can graduate students in Book-keeping in 16 weeks and in Shorthand in 12 weeks.

### POSITIONS GUARANTEED.

Business men are constantly on the lookout for young, people who can do a great amount of work and do it easy, and there is such a great demand for our graduates, so many more calls than we can fill that we will guarantee to place you in a good position when graduated. At this writing we have a \$65 position an no one to take it. We often have 20 calls a month more than we can supply, often in a week we have a half dozen good positions for graduates that we cannot fill.

#### A FAIR PROPOSITION.

A FAIR PROPOSITION.

During the past three years we have demonstrated the real merits of the wonderful Chartier Shorthand and Actual Practice Book-keeping. We know their possibilities, and, while it might seem strange that we CAN and DO graduate students in 28 weeks, for \$80, and that it takes from 12 to 15 months with old systems, and costs \$150 to \$180, yet, with THESE SYSTEMS this is possible. We know this as we have a host of graduates drawing excellent salaries and NOW, we are going to give a Full Week's Instruction FREE, beginning January 4th, admitting all who desire. At the end of the week having thoroughly investigated the work and having paid no money you can then decide whether it is what you want and whether to take it or not.

Does it not look that we have great confidence in the systems to be willing to take you and teach you a week FREE and then let you decide what you want to do? No school teaching any other system will permit you to do this—the reason is, the old systems are so hard to learn that if you were to take a week free, they could not induce you to take the course. While with this system, when you have been a week you will be more anxious to take the course than ever.

Make your arrangements to be here January 4th, and at the old of the first week you will for the course.

Make your arrangements to be here January 4th, and at the end of the first week you will enroll for the course.

Enroll January 4th. Graduate in Book-keeping and Shorthand and a good position will be yours. We guarantee results. Bring your friends with you. Day and Night sessions.

#### GOOD ROAD SUGGESTION.

GOOD ROAD SUGGESTION.

Kansas Man Bays Put State Agricultural College in Charge.

Several articles have appeared in the papers recently on the subject of thought of a lot of new officers and commissions. Why duplicate officers all the time? Instead of creating new commissions and a new set of officers the sensible and economical thing to do would be to grant the Agricultural college funds to be used for freutral college funds to be used for free to county commissioners, town ship trustees and road supervisors Special meetings have been held in many counties, and the subject of good roads has been placed on the programs of hundreds of farmers' institute.
